| | 23. Fire Protection Engineering |

ISO Training

At Velosi, we believe that in order for an organization to adapt to quality management system processes, it should have an individual with the greatest capacity for implementing global marketing standards, enabling the company to grow without compromising employee and customer safety. We provide extensive training courses that not only give participants in-depth information but also an understanding of ISO standards, equipping them with the knowledge and skills necessary to achieve sustainable quality.

1. ISO 9001 – Quality Management Systems
2. ISO 14001 – Environment Management System
3. OHSAS 18001 – Occupational Health & Safety Management Systems
4. ISO 45001 – Occupational Health & Safety Management Systems
5. ISO 50001 – Energy Management System
6. ISO 55001 – Asset Management Systems
7. ISO 22000 - Food Safety Management Systems
8. ISO 17025 - Business Continuity Management Systems.

NEBOSH Training

We provide NEBOSH (National Examination Board for Occupational Safety and Health) courses that are focused on the practical application of workplace health and safety management standards and procedures. Employees at any level and in any industry may benefit from our highly experienced teachers and competent instructors who have personal knowledge or expertise regarding NEBOSH Courses.

Qualifications are also available in a variety of categories, including the following:

- NEBOSH's Certificate-level qualifications give a solid foundation in health and safety for managers, supervisors, and those just commencing out in a career in health and safety, among other things.
- NEBOSH's Award-level qualifications provide a basic knowledge of health and safety concepts and practices. These qualifications are also an excellent gateway to further NEBOSH certificates.
- NEBOSH Diplomas are professional credentials for those working in the fields of health, safety, and the environment.

IOSH Training

This certification from the Institution of Occupational Safety and Health (IOSH) allows managers and safety leaders to manage health and safety in their workplace successfully. At Velosi, our courses include an excellent balance of new understanding and hands-on experience. Our IOSH training courses, which are delivered by highly qualified instructors, are suitable for individuals working in a wide range of sectors and occupations.

- | | |
|--------------------------------------|--------------------------------------|
| 1. Managing Safely | 5. Safety for Executives & Directors |
| 2. Managing Safely in Social Housing | 6. Working Safely |
| 3. Managing Safely Refresher | 7. Managing Occupational Health & |
| 4. Leading Safely | Wellbeing |

Food Safety Training

Our food safety trainings are designed for employees in the hospitality industry, catering, restaurants, and manufacturing industries to ensure that they are following all local authority and food safety regulations. Food safety refers to how we handle, store, and prepare food to avoid infection and ensure that our food contains enough nutrients for us to eat a healthy diet.

- | | |
|---|---|
| 1. Basic Food Hygiene Training (level 2) | 4. HACCP Awareness Training (Level 2) |
| 2. Intermediate Food Hygiene Training (Level 3) | 5. Intermediate HACCP Training (Level 3) |
| 3. Advance Food Hygiene Training (Level 4) | 6. Advance HACCP Training (Level 4) |

Postgraduate Qualifications

At Velosi, our postgraduate qualifications in Process Safety and Risk Management are being offered to meet the increasing need for industry-related courses and certifications. In this program, students will be able to analyze and assess a wide variety of practical management tools and methods, as well as show competence in a variety of distinct approaches and tools. The modules are taught by highly skilled instructors with industry expertise, to help students improve their practical skills and knowledge.

Velosi postgraduate qualifications are listed as follow:

- Master of Science in Process Safety & Risk Management (MSc)
- Postgraduate Diploma in Process Safety & Risk Management (PgDip)
- Postgraduate Certificate in Process Safety & Risk Management (PgCert)

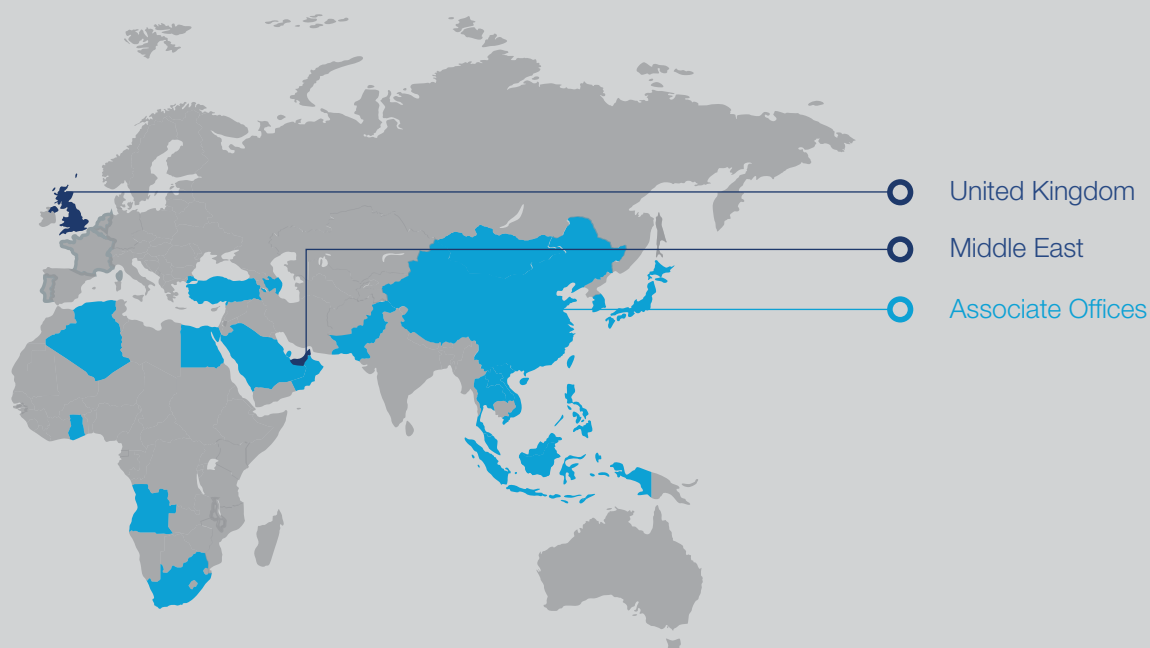

Admin & Business Related Training

Administration and business-related courses are also available at Velosi. These certifications contain a diverse variety of modules that are designed to meet the requirements of both learners and employers, ranging from learning to do basic administrative duties to acquiring higher-level support skills and each course provides a great mix of fresh knowledge and hands-on experience. People working in a variety of industries and professions may benefit from our detailed training courses, which are given by fully skilled trainers.

Admin training courses are also available in a variety of categories, including the following:
